

Operating Approval No. DEMO-2026-014

Prairie Demonstration Facility

This synthetic document is provided only to demonstrate traceable obligation extraction, human review, field evidence collection, and audit history in the Rook compliance prototype.

Approval holder	Prairie Demonstration Operations Ltd.
Facility	Prairie Demonstration Facility
Jurisdiction	Alberta, Canada (synthetic)
Effective date	January 1, 2026

Important

All names, locations, clauses, and dates in this file are fictional. It is safe to upload to the public demo.

General provisions - page 2

This page contains synthetic contextual material for the demonstration approval. It intentionally contains no enforceable clause so extraction results remain focused and easy to review.

Purpose of this section

The demonstration shows how long source documents can be converted into a concise, traceable review queue without treating automated extraction as a final compliance decision.

General provisions - page 3

This page contains synthetic contextual material for the demonstration approval. It intentionally contains no enforceable clause so extraction results remain focused and easy to review.

Purpose of this section

The demonstration shows how long source documents can be converted into a concise, traceable review queue without treating automated extraction as a final compliance decision.

General provisions - page 4

This page contains synthetic contextual material for the demonstration approval. It intentionally contains no enforceable clause so extraction results remain focused and easy to review.

Purpose of this section

The demonstration shows how long source documents can be converted into a concise, traceable review queue without treating automated extraction as a final compliance decision.
